When Intelligence Becomes a Commodity

Why AI's Unit of Settlement Is Moving Up

This is a placeholder PDF wired up to demonstrate the download pipeline (/papers/*.pdf). Replace it with the real paper or slide deck whenever ready — just drop a file at public/papers/ and update the Markdown link.

Note: pdf-lib standard fonts are Latin-only, so this sample is in English. A Chinese PDF would embed a CJK font (e.g. Noto Serif SC) — out of scope for a placeholder.
